TRANSMITTAL OF REVISED DRAFT INTERIM MEASURE/INTERIM RESPONSE ACTION DECISION
DOCUMENT FOR OPERABLE UNIT SEVEN- TGH-046-96

This letter transmits eighteen copies of the revised draft Interim Measure/Interim Response Action Decision Document (IM/IRA DD) for Operable Unit Seven. Nine copies are for subsequent transfer to the Environmental Protection Agency (2), the Colorado Department of Public Health and Environment (2) and the Trustees (5).

The document was revised to reflect comments received from the Department of Energy-Rocky Flats Field Office, the Environmental Protection Agency (EPA) and the Colorado Department of Public Health and Environment (CDPHE). Responses to the Environmental Protection Agency and the Colorado Department of Public Health and Environment comments are included as Appendix J. Responses to DOE's comments are enclosed herein.

As agreed in the January 18, 1996 Agency Interface meeting, the revised document is due to the Environmental Protection Agency and the Colorado Department of Public Health and Environment on March 8, 1996. At that meeting, the agencies requested another review period because of the extensive revisions projected for the document. It is our understanding the Department of Energy-Rocky Flats Field Office will review the IM/IRA DD concurrently with the EPA and CDPHE. We recommend receipt of comments from the agencies no later than April 1, 1996 in order to achieve the scheduled scope for this project.

If you have questions concerning this transmittal, please contact Stephen Hahn, of my staff, at extension 9888.
